*Extract from act of Congress of February 20, 1907, creating and defining the duties of the Immigration Commission.*

That a commission is hereby created, consisting of three Senators, to be appointed by the President of the Senate, and three Members of the House of Representatives, to be appointed by the Speaker of the House of Representatives, and three persons to be appointed by the President of the United States. Said commission shall make full inquiry, examination, and investigation, by subcommittee or otherwise, into the subject of immigration. For the purpose of said inquiry, examination, and investigation said commission is authorized to send for persons and papers, make all necessary travel, either in the United States or any foreign country, and, through the chairman of the commission, or any member thereof, to administer oaths and to examine witnesses and papers respecting all matters pertaining to the subject, and to employ necessary clerical and other assistance. Said commission shall report to Congress the conclusions reached by it, and make such recommendations as in its judgment may seem proper. Such sums of money as may be necessary for the said inquiry, examination, and investigation are hereby appropriated and authorized to be paid out of the "immigrant fund" on the certificate of the chairman of said commission, including all expenses of the commissioners, and a reasonable compensation, to be fixed by the President of the United States, for those members of the commission who are not Members of Congress; \* \* \*

## GENERAL EXPLANATION OF TABLES.

---

Persons of native birth have been divided into two general groups and further subdivided under each of the two, as follows:

1. *Native-born of native father.*—Persons under this group are classified as White, Negro, Indian, Chinese, Hindu, Japanese, and Korean.

2. *Native-born of foreign father.*—Persons under this group are further classified according to race of father. The classification by race (or people) is that used for several years by the United States Bureau of Immigration and Naturalization.

Persons of foreign birth are classified according to race (or people). The classification of the United States Bureau of Immigration and Naturalization is followed.

Throughout the study information is presented:

1. By general nativity and race of the "individual" in all tables which show facts which are personal in their nature, such as English speaking, occupation, or conjugal condition.

2. By general nativity and race of "head of family" in tables concerned with family matters; for example, family income.

3. By general nativity and race of "head of household" in all tables dealing with living conditions, among which are tables showing the composition of the household and the number of persons per room and per sleeping room. The distinction which has been made throughout this study between "family" and "household" is dependent upon the use of the term "apartment."

An "apartment" is a room or rooms within which all the usual daily processes of living, namely, cooking, eating, and sleeping, are carried on by the occupants. According to this definition an apartment may be, for example, a whole house, or it may be a single room of what was originally intended as an apartment, or it may be a corner of a wareroom or the back of a storeroom partitioned off and set aside for household uses. Two or more groups of occupants with distinctly separate money interests frequently rent a number of rooms jointly, occupying certain rooms separately but sharing one or more, usually the kitchen or kitchen and living room. Under these conditions neither the rooms used by the one group of occupants nor those used by the other can be considered an apartment, since the room used in common must in such case be considered a room in each apartment and thus be counted twice. Where these conditions have been encountered the entire number of rooms has been considered one apartment.

The "household" includes all persons living within an apartment without regard to the relationships which exist among them. The household may consist of one or more families with or without boarders or lodgers; or it may consist of a group of persons living together, no family included; or it may consist of various combinations of families, "groups," and boarders or lodgers.

The term "family" as used throughout these tables refers in general to the immediate family composed of husband, wife, and children. Groups of persons among whom none of these relations exist are not considered families. Households in which complicated relationships exist have been resolved into the component immediate families. Remnants of families maintaining a home are considered families when either husband or wife is present.

*Number of households in each block or district, by general nativity and race of head of household.*—Tables 1, 58, 107, 156, 213, 270, 320.

These tables record the number of households in each block or district canvassed and the total number of persons in households. Households are classified according to the general nativity and race of head of household; the total number of persons in blocks or districts is shown regardless of general nativity and race.

*Total number of households and persons studied, by general nativity and race of head of household.*—Tables 2, 59, 108, 157, 214, 271, 321, 369.

These tables enumerate the households studied of each race, the aggregate of the members of the households of each race, and the persons, male and female, who are included in the detailed study of members of households. All members of households appear in these tables under the general nativity and race of head of household.

*Number and class of households, by general nativity and race of head of household.*—Tables 3, 60, 109, 158, 215, 272, 322, 370.

All households are here divided into "family households," or households where a family is present, and "group households," or households composed of a group of persons, no family included. Family households are further classified as being with or without boarders or lodgers. Family households with neither boarders nor lodgers are subdivided into those consisting of a single family and those consisting of two or more families living in the same apartment and sharing one or more rooms. Family households with boarders or lodgers are subdivided into those who keep boarders and those who keep only lodgers. Households keeping both boarders and lodgers are here entered as households with boarders. "Boarders" are persons to whom both food and lodging are furnished.

*Country of birth of foreign-born heads of households, by sex and race of individual.*—Tables 4, 61, 110, 159, 216, 273, 323, 371.

The heads of households of the several races are here classified according to the country of their nativity, which, with the exception of a very few cases, is the country in which they lived until coming to the United States.

*Province of birth of South Italian heads of households, by sex of individual.*—Tables 4a, 61a, 110a, 159a, 216a, 273a, 323a, 371a.

The heads of households of the South Italian race are here classified according to the province of their nativity, which, with the exception of a very few cases, is the province in which they lived until coming to the United States.

*Number of persons for whom detailed information was secured, by sex and general nativity and race of individual.*—Tables 5, 160, 217.

These tables are a second enumeration of the persons, male and female, who are included in the detailed study of members of households. In this enumeration each individual appears under his own general nativity and race.

*Age of heads of households, by sex and general nativity and race of individual.*—Tables 6, 62, 111, 161, 218, 274, 324, 372.

These tables give the number of heads of households of each sex who report their ages as under 20 years, 20 to 29 years, 30 to 44 years, 45 to 59 years, and 60 years or over.

*Number of persons within each age group, by sex and general nativity and race of head of household.*—Tables 7, 63, 112, 162, 219, 275, 325, 373.

These tables give for all households studied the number of persons of each sex who report their ages as under 6 years, 6 to 13 years, 14 and 15 years, 16 to 19 years, 20 to 29 years, 30 to 44 years, and 45 years or over. Persons whose race or nativity differs from the head of the household appear in these tables under the race and nativity of the head.

*Conjugal condition, by sex, age groups, and general nativity and race of individual.*—Tables 8, 163, 220.

These tables include persons 16 years of age or over. Such persons are classified in four groups according to age, and the persons in each group are further classified according to whether they are single, married, or widowed. With the widowed are included the relatively few persons who are deserted, divorced, or separated.

*Number of foreign-born male heads of households in the United States each specified number of years, by race of individual.*—Tables 9, 64, 113, 164, 221, 276, 326, 374.

All foreign-born male heads of households who report the number of years since their first arrival in the United States are here classified as in the United States under 1 year, 1 year, 2 years, 3 years, 4 years, 5 to 9 years, 10 to 14 years, 15 to 19 years, or 20 years or over.

*Number of foreign-born persons in the United States each specified number of years, by sex and race of individual.*—Tables 10, 165, 222.

These tables are similar to Tables 9, 64, 113, 164, 221, 276, 326, 374, relating to male heads of households.

*Number of persons per household in apartments of each specified size, by general nativity and race of head of household.*—Tables 11, 65, 114, 166, 223, 277, 327.

Households are here classified according to the number of rooms which they occupy and are further classified according to the number of persons of which they are composed. Rooms used exclusively for business purposes, although connected with the apartment, are not counted in the number of rooms per apartment as before stated. Only such persons as sleep in the apartment are considered members of the household. The tabulation is by the general nativity and race of head of household.

*Number of households occupying apartments of each specified number of rooms, by general nativity and race of head of household.*—Tables 12, 66, 115, 167, 224, 278, 328, 375.

These tables are a summary of a part of the data of Tables 11, 65, 114, 166, 223, 277, 327. Households are classified here according to the number of rooms they occupy.

*Number of households of each specified number of persons, by general nativity and race of head of household.*—Tables 13, 67, 116, 168, 225, 279, 329, 376.

These tables are a summary of a part of the data in Tables 11, 65, 114, 166, 223, 277, 327. Households are classified here according to the number of their members.

*Number of households and number of persons in apartments of each specified number of rooms, by general nativity and race of head of household.*—Tables 14, 68, 117, 169, 226, 280, 330, 377.

These tables are a summary of a part of the data in Tables 11, 65, 114, 166, 223, 277, 327. They give the total number of households and the total number of persons in apartments of each specified size.

*Number of households which have each specified number of persons per room, by general nativity and race of head of household.*—Tables 15, 69, 118, 170, 227, 281, 331, 378.

These tables show the number of households which average less than one person per room, one and less than two persons per room, two and less than three persons per room, etc. These tables also give the average number of persons per household and per room for all households studied. The data are presented by the general nativity and race of head of household.

*Number of households which have each specified number of persons per sleeping room, by general nativity and race of head of household.*—Tables 16, 70, 119, 171, 228, 282, 332, 379.

These tables present the data relative to persons per room regularly used for sleeping purposes. These tables are similar to Tables 15, 69, 118, 170, 227, 281, 331, 378.

*Number of households which have each specified number of adults per room, by general nativity and race of head of household.*—Tables 17, 71, 120, 172, 229, 283, 333, 380.

These tables show the number of households which average less than one adult per room, one and less than two adults per room, two and less than three adults per room, etc. These tables also give the average number of adults per household and per room for all households studied. The term "adult" as used in this series of tables is equivalent to one person 10 years of age or over, or two persons under 10 years of age.

*Number of households which have each specified number of adults per sleeping room, by general nativity and race of head of household.*—Tables 18, 72, 121, 173, 230, 284, 334, 381.

These tables present the data relative to adults per room regularly used for sleeping purposes. The tables are similar to Tables 17, 71, 120, 172, 229, 283, 333, 380.

*Number of foreign households which have each specified number of adults per room, by race of head of household and by years head has been in the United States.*—Tables 19, 73, 122, 174, 231, 285, 335, 382.

Households are here separated into three groups according to the number of years since the first arrival of the head in the United States and are further classified according to the number of adults per room after the manner of Tables 17, 71, 120, 172, 229, 283, 333, 380.

*Number of foreign households which have each specified number of adults per sleeping room, by race of head of household and by years head has been in the United States.*—Tables 20, 74, 123, 175, 232, 286, 336, 383.

Households are here separated into three groups according to the number of years since the first arrival of the head in the United

States and are further classified according to the number of adults per sleeping room after the manner of Tables 18, 72, 121, 173, 230, 284, 334, 381.

*Number of households regularly sleeping in all except each specified number of rooms, by general nativity and race of head of household.*—Tables 21, 75, 124, 176, 233, 287, 337, 384.

These tables classify households according to the number of rooms left for living purposes, after the number of sleeping rooms has been deducted.

*Number of households keeping boarders or lodgers and number of boarders and lodgers, by general nativity and race of head of household.*—Tables 22, 76, 125, 177, 234, 288, 338, 385.

These tables show the number of households keeping boarders and the number keeping only lodgers; they also show the total number of boarders and of lodgers. The facts are shown under the race of the head of the household. "Boarders" both sleep and eat with the household. Households which keep lodgers in addition to boarders are classified with the households keeping boarders. Among certain races it is customary to include one of the following accommodations with the nominal price of lodging: (1) Coffee or soup is served once a day; (2) the lodger is allowed the privilege of cooking his food on the kitchen stove; (3) the housewife buys the lodger's food having the price charged in his account book, and prepares the food for him. Persons with each of the above financial arrangements consider themselves lodgers and have been classified as such in these tables.

*Number of foreign households keeping boarders or lodgers, by race of head of household and by years head has been in the United States.*—Tables 23, 77, 126, 178, 235, 289, 339, 386.

Households are here classified in three groups according to the number of years since the head of the household first came to the United States, and for each group the number of households keeping boarders or lodgers is given. The data are tabulated by the race of head of household.

*Gainful employment pursued in apartment, by general nativity and race of head of household.*—Tables 24, 78, 127, 179, 236, 290, 340.

These tables give for each apartment in which gainful employment is pursued the kind of employment, the sex and standing in the household of all persons engaged therein, and the total amount of earnings in the apartment for the year ending at the time the schedule was taken. Rooms used exclusively for business purposes have not been counted in the number of rooms per apartment.

The occupations listed here, therefore, are carried on in rooms which are used for living purposes.

*Number of apartments in which each specified amount per year is earned, by employment pursued and by general nativity and race of head of household.*—Table 291. This table summarizes the data in Table 290.

*Number of households where water supply is used by each specified number of households, by general nativity and race of head of household.*—Tables 25, 79, 128, 180, 237, 292, 341, 388.

Each household is here classified according to the number of households using the source of water supply to which it has access.

*Number of households where toilet is used by each specified number of households, by general nativity and race of head of household.*—Tables 26, 80, 129, 181, 238, 293, 342, 389.

Each household is here classified according to the number of households which use the toilet or toilets to which it has access.

*Number of apartments where care is good, fair, etc., by general nativity and race of head of household.*—Tables 27, 81, 130, 182, 239, 294, 343, 390.

Apartments are here classified under four heads, according to the degree of cleanliness and order which characterized them at the time the schedule was taken. Apartments classified as "good" were both neat and clean; apartments marked "fair" were clean, but in disorder; apartments marked "bad" and "very bad" were dirty and in disorder, and the two classes differ only in degree.

*Number of families owning home, renting, boarding, etc., by general nativity and race of head of family.*—Tables 28, 82, 131, 183, 240, 295, 344, 391.

These tables show for all families studied the number owning their homes, the number renting homes, the number boarding, and the number lodging. The few dependent families are included in the miscellaneous class "in other conditions." The data are presented by general nativity and race of head of family.

*Number of households paying each specified rent per month per apartment, by general nativity and race of head of household.*—Tables 29, 83, 132, 184, 241, 296, 345, 392.

In these tables appear only the renting households which report the rent paid for the unfurnished rooms which they use for living purposes. The following classes are thus excluded from these tables:

1. Households which rent apartment furnished.
2. Households which pay an undivided sum for apartment and place of business.
3. Resident landlords who pay an undivided sum for the apartment they occupy and other apartments which they sublet.

*Number of households paying each specified rent per month per room, by general nativity and race of head of household.*—Tables 30, 84, 133, 185, 242, 297, 346, 393.

The households included in these tables are the same as in Tables 29, 83, 132, 184, 241, 296, 345, 392.

*Number of households paying each specified rent per month per person, by general nativity and race of head of household.* Tables 31, 85, 134, 186, 243, 298, 347, 394.

The households included in these tables are the same as in Tables 29, 83, 132, 184, 241, 296, 345, 392.

*Number of foreign-born male heads of households 16 years of age or over at time of coming to the United States, who were engaged in farming abroad, by race of individual.*—Tables 32, 86, 135, 187, 244, 299, 348, 395.

These tables show the number of foreign-born male heads of households who were old enough at the time of their first arrival in the United States to have had an occupation abroad and the number who report such occupation as farming or farm labor.

*Occupation in detail of heads of households, by sex and general nativity and race of individual.*—Tables 33, 87, 136, 188, 245, 300, 349.

Heads of households are here classified according to the occupation followed within the year ending with the taking of the schedule. No attempt is made at classification of occupations beyond a separation on the basis of wages and profits. Wherever both profit earners and wage earners occur in the same occupation they are designated as proprietors and employees, respectively. Wherever there is no such designation the occupation is that of a wage earner, except in cases where the name of the occupation clearly indicates proprietorship, as, for example, "contractor."

*Number of males 16 years of age or over in each specified industry, by general nativity and race of individual.*—Tables 34, 88, 137, 189, 246, 301, 350, 396.

These tables classify the males 16 years of age or over who have had employment within the year ending with the taking of the schedule, according to the industry in which they have been employed, and also show the number at home and at school.

The main headings used in these tables follow the classification of the United States Census with the following modifications: General labor is here separated from domestic and personal service; fishing, mining, and quarrying are separated from manufacturing and mechanical pursuits; trade and transportation are distinct from each other. The headings as here used are:

1. Agricultural pursuits.
2. Domestic and personal service.
3. Manufacturing and mechanical pursuits.
4. Mining (including quarrying).
5. General labor.
6. Professional service.
7. Trade.
8. Transportation.
9. Fishing.

The term "Domestic and personal service" includes besides domestic servants certain classes of persons not professional who serve the general public, such as policemen, city firemen, and employees at places of amusement.

*Number of females 16 years of age or over in each specified industry, by general nativity and race of individual.*—Tables 35, 89, 138, 190, 247, 302, 351, 397.

These tables are similar to Tables 34, 88, 137, 189, 246, 301, 350, 396, relating to males.

*General occupation of persons under 16 years of age, by sex, age groups, and general nativity and race of individual.*—Tables 36, 90, 139, 191, 248, 303, 352, 398.

These tables show the number of children, male and female, under 6 years of age, 6 to 13 years of age, and 13 and 14 years of age, and further show for each age group the number of children at home, at school, and at work. The few children who were found with employment outside of school hours are tabulated here as at school, and the few children who were found working through the day and attending night school are here entered as at work.

*Yearly earnings (approximate) of males 18 years of age or over, by general nativity and race of individual.*—Tables 37, 91, 140, 192, 249, 304, 353, 399.

Male wage-earners are here classified according to the amount of their earnings for the year ending at the time of the agent's visit.

Persons who receive board and lodging in addition to a money wage and persons who receive tips or other perquisites over and above a stipulated wage are not included in these tables.

*Yearly earnings (approximate) of females 18 years of age or over, by general nativity and race of individual.*—Tables 38, 92, 141, 193, 250, 305, 354, 400.

These tables are similar to Tables 37, 91, 140, 192, 249, 304, 353, 399, which relate to earnings of males.

*Amount of family income per year, by general nativity and race of head of family.*—Tables 39, 93, 142, 194, 251, 306, 355.

These tables, with the three which follow, form a study of family incomes. The information relative to income was secured for the year ending at the time of the agent's visit.

In the "selection of families" for the compilation of data concerning family income the following classes are omitted:

1. Families established less than one year.
2. Families living two or more per household under complicated financial arrangements, so that exact incomes from sources within the household are uncertain.
3. Families with earnings or contributions representing entire earnings of members who are profit earners or whose net earnings for any other reason are uncertain. That part of the income represented by earnings is net.

The families included in the study are here classified according to the amount of total income for the year from all sources. In some cases the incomes appearing here are gross. The proportion of such cases may be roughly ascertained from Tables 41, 95, 144, 196, 253, 308, 357.

*Number of families having an income within the year from husband, wife, children, boarders or lodgers, and other sources, by general nativity and race of head of family.*—Tables 40, 94, 143, 195, 252, 307, 356, 401.

The families included in these tables are the same as in Tables 39, 93, 142, 194, 251, 306, 355. The sources of income of the family within the year are shown separately in these tables, each family being counted as many times as it has sources of income.<sup>a</sup> The principal items under "Other sources" are (1) receipts from investments, which, in the great majority of cases, are in the form of rentals, and (2) contributions of friends or relatives, who pay either more or less than the rates of boarders or lodgers. Attention is called to the fact that the family may have had income from some source—for example, from boarders or lodgers—within the year, but not at the time the schedule was taken.

*Source of family income in detail, by general nativity and race of head of family.*—Tables 41, 95, 144, 196, 253, 308, 357.

The families included in these tables are the same as in Tables 39, 93, 142, 194, 251, 306, 355. They are classified here according to the source or combination of sources upon which the family has been wholly dependent for income within the year ending with the taking of the schedule. The four items which make up all incomes except those listed in the last column of the table are earnings of

<sup>a</sup> Earnings of children appear in the incomes of families in Buffalo, Chicago, New York, and Philadelphia; contributions of children appear in the incomes of families in Boston, Cleveland, and Milwaukee.

husband, earnings of wife, earnings or contributions<sup>a</sup> of children, and payments of boarders or lodgers. It will be noted that all families deriving their entire income from husband, wife, and children have a net income, and that all incomes, including the payments of boarders or lodgers, are gross; also that all families having any part of their income from money invested appear in the last column of these tables.

*Number of male heads of families earning each specified amount per year, by general nativity and race of individual.*—Tables 42, 96, 145, 197, 254, 309, 358, 402.

The families included in these tables are the same as in Tables 39, 93, 142, 194, 251, 306, 355. "Husbands" in the two preceding tables are here classified according to the amount of their earnings for the year. Practically all these heads of families are also heads of households.

*Number of family households which have spent whole time in apartment, neighborhood, and city, by length of time established in the United States and by general nativity and race of head of household.*—Tables 43, 97, 146, 198, 255, 310, 359, 403.

These tables classify family households according to the number of years established in the United States, and further classify the households of each group according to whether their entire residence has been in the apartment, the neighborhood, or the city of their present residence. The length of time established in the United States is, for families formed in the United States, the number of years since marriage, and for families formed abroad, the number of years the family has resided in the United States.

*Ability to speak English of male heads of households, by general nativity and race of individual.*—Tables 44, 98, 147, 199, 256, 311, 360, 404.

These tables show for all non-English-speaking races the number of male heads of households who can converse fairly well in the English language.

*Ability to speak English of females, by general nativity and race of individual.*—Tables 99, 148, 312, 361.

These tables show for all non-English-speaking races the number of female heads of households or wives of heads of households who can converse fairly well in the English language.

*Ability to speak English of foreign-born male heads of households, by years in the United States and race of individual.*—Tables 45, 100, 149, 200, 257, 313, 362, 405.

These tables classify foreign-born male heads of households of non-English-speaking races according to the number of years since their first arrival in the United States and show the number able to speak English in each of the three groups.

*Ability to speak English of foreign-born male heads of households, by age at time of coming to the United States and race of individual.*—Tables 46, 101, 150, 201, 258, 314, 363, 406.

<sup>a</sup> Earnings of children appear in the incomes of families in Buffalo, Chicago, New York, and Philadelphia; contributions of children appear in the incomes of families in Boston, Cleveland, and Milwaukee.

These tables classify foreign-born male heads of households of non-English-speaking races according to whether they were under 14 years of age or 14 years of age or over at the time of their first arrival in the United States and show the number able to speak English in each of the two groups.

*Ability to speak English of persons 6 years of age or over, by sex and general nativity and race of individual.*—Tables 47, 202, 259.

These tables are similar to Tables 44, 98, 147, 199, 256, 311, 360, 404, relating to male heads of households.

*Ability to speak English of foreign-born persons 6 years of age or over, by sex, years in the United States, and race of individual.*—Tables 48, 203, 260.

These tables are similar to Tables 45, 100, 149, 200, 257, 313, 362, 405, relating to male heads of households.

*Ability to speak English of foreign-born persons 6 years of age or over, by sex, age at time of coming to the United States, and race of individual.*—Tables 49, 204, 261.

These tables are similar to Tables 46, 101, 150, 201, 258, 314, 363, 406, relating to male heads of households.

*Literacy of male heads of households, by general nativity and race of individual.*—Tables 50, 102, 151, 205, 262, 315, 364, 407.

These tables show the number of male heads of households who read some language, and the number who both read and write some language.

*Literacy of females, by general nativity and race of individual.*—Tables 103, 152, 316, 365.

These tables show the number of female heads of households and wives of heads who read some language, and the number who both read and write some language.

*Literacy of foreign-born male heads of households, by years in the United States and race of individual.*—Tables 51, 104, 153, 206, 263, 317, 366, 408.

These tables classify foreign-born male heads of households according to the number of years since their first arrival in the United States, and show the number able to read some language and the number able both to read and to write some language, in each of the three groups.

*Literacy of foreign-born male heads of households, by age at time of coming to the United States and race of individual.*—Tables 52, 105, 154, 207, 264, 318, 367, 409.

These tables classify foreign-born male heads of households according to whether they were under 14 years of age, or 14 years of age or over at the time of their first arrival in the United States, and show the number able to read some language and the number able both to read and to write some language in each of the groups.

*Literacy of persons 10 years of age or over, by sex and general nativity and race of individual.*—Tables 53, 208, 265.

These tables are similar to Tables 50, 102, 151, 205, 262, 315, 364, 407, relating to male heads of households.

*Literacy of foreign-born persons 10 years of age or over, by sex, years in the United States, and race of individual.*—Tables 54, 209, 266.

These tables are similar to Tables 51, 104, 153, 206, 263, 317, 366, 408, relating to male heads of households.

*Literacy of foreign-born persons 10 years of age or over, by sex, age at time of coming to the United States, and race of individual.*—Tables 55, 210, 267.

These tables are similar to Tables 52, 105, 154, 207, 264, 318, 367, 409, relating to male heads of households.

*Present political condition of foreign-born male heads of households who have been in the United States five years or over and who were 21 years of age or over at time of coming, by race of individual and length of residence.*—Tables 56, 106, 155, 211, 268, 319, 368, 410.

These tables include only foreign-born male heads of households who were 21 years of age or over at the time of their first arrival in the United States and who have been here long enough to acquire citizenship. These persons are classified as in the United States five to nine years and ten years or over, and are further classified as aliens, citizens, and persons with only their first papers.

*Present political condition of foreign-born males who have been in the United States five years or over and who were 21 years of age or over at time of coming, by race of individual and length of residence.*—Tables 57, 212, 269.

These tables are similar to Tables 56, 106, 155, 211, 268, 319, 368, 410, relating to male heads of households.
